

X11812

Model X (VIN:011812)

Battery Pack Size: **90 kWh**

Rated Range: **76 mi**

State of Charge: **31%**

Charge Limit: **90%**

Battery Health: **95%**

** This shows a calculated estimation of battery capacity compared to the capacity when this battery was new. All batteries lose some capacity over time with use, similar to those in electronic devices such as smartphones*

Driving Efficiency

We need some data while you are driving to calculate efficiency, so check back after driving at least 100 miles, when your odometer shows 24,928 miles or more

Day	Week	Month	All time
-----	------	-------	----------

Efficiency Since 05/18/2019: **--%**

Community Average Efficiency: **83%**

Phantom Drain

This is a measure of how much range your vehicle lost while stationary.

Day	Week	Month	All time
-----	------	-------	----------

Drain Since 05/18/2019: **0 mi**

Average Drain Rate Since 05/18/2019: **0 mi/hr**

💰 Carmiq Value

Estimated sale value **\$76,395**

** Estimations are made based on the used Tesla market in conjunction with the mileage, configuration and options of your vehicle. Your actual selling price may vary, and Carmiq assumes no responsibility for errors.*
